

Fractions on Number Lines

1. Mark following points on given number line.

$$A = \underline{\frac{2}{7}}$$

$$B = \underline{\frac{3}{7}}$$

$$C = \underline{\frac{5}{7}}$$

$$D = \underline{\frac{4}{7}}$$

$$A = \underline{\frac{1}{6}}$$

$$B = \underline{\frac{2}{3}}$$

$$C = \underline{\frac{1}{3}}$$

$$D = \underline{\frac{5}{6}}$$

$$A = \underline{\frac{3}{5}}$$

$$B = \underline{\frac{1}{5}}$$

$$C = \underline{\frac{4}{5}}$$

$$D = \underline{\frac{2}{5}}$$

$$A = \underline{\frac{3}{10}}$$

$$B = \underline{\frac{1}{10}}$$

$$C = \underline{\frac{7}{10}}$$

$$D = \underline{\frac{9}{10}}$$

$$A = \underline{\frac{1}{8}}$$

$$B = \underline{\frac{3}{8}}$$

$$C = \underline{\frac{5}{8}}$$

$$D = \underline{\frac{7}{8}}$$

2. Write the fraction for following letters:

3. following fraction on number line:

- $\frac{1}{8}$ $\frac{3}{5}$ $\frac{4}{9}$ $\frac{5}{11}$ $\frac{2}{6}$ $\frac{7}{10}$ $\frac{1}{3}$ $\frac{3}{4}$ $\frac{5}{8}$ $\frac{11}{12}$ $\frac{1}{4}$ $\frac{6}{9}$ $\frac{3}{7}$ $\frac{2}{10}$ $\frac{4}{5}$

4. On a number line you will find $\frac{5}{8}$ between what numbers: a) 5 and 8 b) 0 and 1 c) 2 and 5

5. On a number line you will find $\frac{4}{6}$ between what numbers: a) 4 and 6 b) 1 and 2 c) 0 and 1
